

PhotoAffections Releases FreePrints 1.4 for iPhone

Up to 1,000 high-quality 4x6 photo prints per year for FREE & more – from right within the app!

RIVERSIDE, CA, May 30, 2013—PhotoAffections (www.photoaffections.com), a leading online provider of high-quality custom printed [photo birth announcements](#), [invitations](#), [photo cards](#), [wall décor](#) and more, is extremely pleased to offer a new version of [FreePrints](#), the exciting mobile app that has revolutionized mobile photo printing, to iOS users. The millions of photos taken on smartphones every year often remain hidden there, but with the **FreePrints mobile app**, PhotoAffections has created a fast and free way to have those photos printed and on doorsteps within just days. iPhone, Android and Windows Phone users can order up to 1,000 free professionally printed 4x6 photos per year, directly from their mobile phones and have them delivered quickly – for just the price of shipping and handling.

“FreePrints is the fastest, easiest and most affordable way to order photo prints right from your mobile phone,” said Adam Black, Product Development Manager at PhotoAffections.com. “With FreePrints 1.4, iPhone users can now order larger print sizes and easily access Dropbox photos for printing.”

Free to download and always easy to use, the FreePrints app lets users order 85 free 4x6 prints per month, or up to 1,000 free prints per year, with shipping and handling costs starting as low as \$1.99 and never more than \$9.99, no matter how many photos are ordered. Moreover, if customers would like two, three, four or more of any one individual print, they can be purchased at extremely competitive pricing. Not only does FreePrints offer high-quality 5x7s and 8x10s, as well as 5x5 prints that are perfect for Instagram photos, it also offers four more versatile sizes - 11x14, 12x18, 16x20 and 20x30 – that can be printed on either deluxe glossy or premium matte paper depending on the photo size. Just a few taps in the app accesses the iPhone’s camera roll or digital photos on Facebook™, Instagram™, Flickr™, Dropbox™ and Picasa™. With the ability to crop and edit from right within the app and a larger size variety than many other mobile photo print services, FreePrints is the most convenient and affordable photo print option on the market. This versatile and timesaving app means no more wasted time syncing with home computers, uploading to sharing sites or visiting the local drug store to pick up prints. Plus, all FreePrints orders are printed and shipped within days and delivered right to customers’ doorsteps.

To download the app or to learn more about FreePrints by PhotoAffections, [Click Here](#) for the iTunes Store, please [Click Here](#) for Google Play or [Click Here](#) for the Amazon AppStore. To learn more about the FreePrints app, please visit www.freeprintsapp.com.

ABOUT PHOTOAFFECTIONS.COM

Founded in 1997 as a professional photo lab, PhotoAffections.com went online in 2004, became exclusively e-commerce in 2007 and has grown steadily ever since into a top-rated destination for photo cards and wall art. We’re proud to offer creative and unique designer birth announcements, holiday photo cards, party invitations, wedding announcements and more, as well as canvas prints and other wall décor products. At PhotoAffections.com we take pride in printing every one of our photo cards at costs that allow us to pass on to our customers not only great savings, but the highest possible quality, as well!
